Security:

- CCTV monitored ground and first floor.
- Panic button and intercom in all the lifts.

Facilities for wheelchair users:

- Access ramps at all entrances for wheelchair users.

Accounts & society office:

- Office for society management.

HIGHLIGHTS

Low density living:

Low-density housing means less crowding, more privacy.

It also means fewer vehicles, more open spaces, and an environment that's much, much cleaner and healthier. An affordable balance between the lifestyle of a metropolitan city and that of a small town.

Given that Nagpur is getting denser, homebuyers are shifting to low-density homes for a serene and peaceful living environment with more space. Happy Galaxy has consciously consumed much less FSI than the development rules allow so that you may enjoy the perks of low density living.

Light and Ventilation:

Naturally ventilated lobbies on each floor with panoramic views to freshen you every time you move in or move out. Each flat has been carefully designed to keep you healthy and fit with abundant sunlight and air. And yes, all of this for you, without compromising on your privacy.

People:

Team of construction industry stalwarts, acclaimed and experienced professionals who choose their projects quite judiciously have come together to develop this project for you.

Flow:

Grand entrance lobby, multiple high speed big capacity lifts, staircases at different locations, minimum wastage in passages, dedicated car parking spaces, spacious driveways with great landscape potted plants, etc. will make your movement superfluous and aesthetic at the same time.

Specification

Structural:

- RCC framed structure to withstand Wind & Seismic Loads. This helps the building stand the vagaries of nature and fury of climate change so that this house can remain your home for generations
